

IIDENTIFII Biometric Data Privacy Policy: BIPA Policy

IIDENTIFII is committed to protecting your privacy. We will collect your biometric information for the purposes of providing our customers with biometric digital identity verification solutions.

IIDENTIFII collects certain personally identifiable information that may be defined by law as "biometric information" or "biometric identifiers" (together, "Biometric Data") under various laws concerning biometric data, including, but not limited to, the Illinois Biometric Information Privacy Act. This Biometric Data Privacy Policy ("Policy") governs the collection, retention, disclosure, and destruction of Biometric Data in accordance with applicable law.

BIOMETRIC DATA DEFINED:

As used in this Policy, "biometric identifiers" means fingerprints; voiceprints; retina, iris, or hand scans; or face geometry. Biometric identifiers do not include information such as writing samples, written signatures, photographs, human biological samples used for valid scientific testing or screening, demographic data, tattoo descriptions, or physical descriptions such as height, weight, hair color, or eye color.

"Biometric information" means any information, regardless of how it is captured, converted, stored, or shared, based on an individual's biometric identifier used to identify an individual.

WHY IIDENTIFII COLLECTS AND USES BIOMETRIC DATA:

IIDENTIFII and the vendors and/or licensors and/or licensees of our digital identity verification software collect, store, and use images as well as data representing or derived from images or other biometric identifiers, solely for identity verification purposes while using our software.

DATA DISCLOSURE

Subject to individual consent, IIDENTIFII may disclose the Biometric Data to its third-party vendors and/or licensors in order to facilitate the provision of the biometric digital identity verification services.

IIDENTIFII does not sell, lease, trade, or otherwise profit from the Biometric Data.

IIDENTIFII prohibits any further disclosure or re-disclosure of Biometric Data unless the disclosure:

- Is consented to by the individual or the individual's legally authorized representative;
- Is required by state or federal law, or required by municipal ordinance; or
- Is required pursuant to a valid warrant or subpoena issued by a court of competent jurisdiction requesting Biometric Data.

DATA SECURITY

IIDENTIFII is committed to collecting and processing Biometric Data responsibly and in accordance with applicable law. IIDENTIFII stores, transmits, and protects all Biometric Data using a reasonable standard of care with measures that are at least equivalent to measures that IIDENTIFII uses to store, transmit, and protect its other confidential and sensitive information. These measures include storing and transmitting Biometric Data in encrypted format.

RETENTION SCHEDULE AND DESTRUCTION

IIDENTIFII retains the Biometric Data until the first of the following occurs:

- The initial purpose for the collection has been satisfied (e.g., so long as the individual from whom it collects Biometric Data is using the digital identity verification services of IIDENTIFII either directly or through a customer of IIDENTIFII); or
- For no longer than three years from the individual's last interaction with IIDENTIFII or their customer using the IIDENTIFII software.
- Unless otherwise required by law or legal process, once the retention schedule no longer authorizes IIDENTIFII to retain the Biometric Data, IIDENTIFII securely and permanently destroys the Biometric Data.
